I am a software engineer with 8 years of professional experience and a strong academic foundation in Mathematics and Philosophy from Oxford University. My current focus and pre-occupations lie in AI safety and digital policy. I seek environments that encourage me to leverage my diverse background to help shape how our societies interact with and benefit from technology.

## TRILINGUAL

## Senior Software Engineer

## EXPERIENCE

2022 - 2025

### SWAN - Banking as a Service

Engineering Manager · (Dec 2023 - May 2025)

Freelance Backend Engineer · (Aug 2022 - Sep 2023)

Led a team of 4 software engineers responsible for crucial banking infrastructure powering user onboarding and data verification:

- Fostered a culture of open debate, quality, ownership and pride.
- Designed and maintained onboarding flows and automations for 100.000+ users. Increased the identity verification success by 70%.
- Moved the team from weekly to daily deliveries, while reducing the failure rate to below 10%, improving confidence and flexibility.
- Worked hand-in-hand with the product manager to drive innovation and align technical architecture with evolving product goals.

**Technologies:** *TypeScript, SQL, GraphQL, Kafka.*

2020 - 2022

### SPICED ACADEMY - Web Development Bootcamp

Web Development Instructor & Software Engineer

Trained 200 students and guided their transition into a technical career:

- Contributed to and taught a 12 week web development curriculum.
- Nurtured a self-organizing team, mentored students and colleagues, provided patient advice, technical and emotional support.

**Technologies:** *JavaScript, SQL, React, Vue.*

2019 - 2020

### KLIMA METRIX - CO<sub>2</sub> Footprint Estimations

Backend Engineer · Project Lead (Feb 2020 - Oct 2020)

Backend Engineer (Sep 2019 - Jan 2020)

- Organized various types of CO<sub>2</sub> emission data sources and compiled them into a unified and searchable graphical database.

**Technologies:** *TypeScript, AWS (CDK), Neo4j.*

2018 - 2019

### DOC CIRRUS - Medical Practice Software

Full-Stack Software Engineer

## EDUCATION & TRAINING

2011 - 2014

### UNIVERSITY of OXFORD

B.A. in Mathematics and Philosophy · First-Class Honours

- Charles Caine Prize for best performance in Mathematics (2014)
- Domus Scholarship for excellent academic performance (2012)

2014 - 2016

### POLYTECHNIQUE / SCIENCES PO / ENSAE · Paris

Dual Master in Economics and Public Policy · Mean: 15.58/20

- Master dissertation on Distributive Justice in Economic Theory

2017 & 2020

### SPICED ACADEMY - Coding Bootcamp · Berlin

Web Development (Oct 2017 - Dec 2017)

Data Science (Apr 2020 - July 2020)

- Project on single cell analyses (clustering, tooling and visualizations)

Sep 2025

### ML4GOOD - AI Safety Bootcamp · Auerbach, Germany

Hands-on training in ML, alignment research, governance & strategy
